

US Army Corps
of Engineers
Buffalo District

General Notes

The information depicted on the map represents the results of surveys made on the date indicated and can only be considered as indicating the general condition at that time. Unless otherwise noted on this map, all depths and soundings are in feet and referred to the International Great Lakes Chart 1985 datum. The chart datum is the mean low water level of Lake Michigan based on observations from 1970-1976.

For more information or to request a digital version of the survey, e-mail us at survey@usace.army.mil. To have a digital version of the survey emailed to you, visit <http://www.usace.army.mil/hydroacoustic/acoustic/surveyrequest.html>. Click on the link "SURVEY REQUEST" to send a message containing your request. This drawing was prepared using a CAD system. Scaling may be distorted.
